

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended **December 31, 2014**

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE
SECURITIES EXCHANGE ACT OF 1934

Commission File No. 0-53029

WESTMOUNTAIN ALTERNATIVE ENERGY, INC.

(Exact Name of Small Business Issuer as specified in its charter)

Colorado

(State or other jurisdiction
of incorporation)

26-1315585

(IRS Employer File Number)

181 W. Boardwalk, Suite 202

Fort Collins, Colorado

(Address of principal executive offices)

80525

(zip code)

(970) 223-4499

(Registrant's telephone number, including area code)

Securities to be Registered Pursuant to Section 12(b) of the Act: **None**

Securities to be Registered Pursuant to Section 12(g) of the Act:

Common Stock \$.001 per share par value

Indicate by check mark if registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No .

Indicate by check mark if registrant is not required to file reports pursuant to Section 13 or 15(d) of the Exchange Act. Yes No .

Indicate by check mark whether the registrant (1) has filed all Reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes: No:

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or such shorter period that the registrant was required to submit and post such files. Yes No

Check if there is no disclosure of delinquent filers in response to Item 405 of Regulation S-K is contained in this form and no disclosure will be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "small reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act): Yes No .

The number of shares outstanding of the Registrant's common stock, as of the latest practicable date, March 25, 2015 was 9,106,250.

State the aggregate market value of the voting and non-voting common equity held by non-affiliates computed by reference to the price at which the common equity was last sold, or the average bid and asked price of such common equity, as of the last business day of the registrant's most recently completed second fiscal quarter: approximately \$965,813 .

Forward-Looking Statements

The following discussion contains forward-looking statements regarding us, our business, prospects and results of operations that are subject to certain risks and uncertainties posed by many factors and events that could cause our actual business, prospects and results of operations to differ materially from those that may be anticipated by such forward-looking statements. Factors that may affect such forward-looking statements include, without limitation: our ability to successfully develop new products and services for new markets; the impact of competition on our revenues, changes in law or regulatory requirements that adversely affect or preclude clients from using us for certain applications; delays our introduction of new products or services; and our failure to keep pace with our competitors.

When used in this discussion, words such as "believes", "anticipates", "expects", "intends" and similar expressions are intended to identify forward-looking statements, but are not the exclusive means of identifying forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We undertake no obligation to revise any forward-looking statements in order to reflect events or circumstances that may subsequently arise. Readers are urged to carefully review and consider the various disclosures made by us in this report and other reports filed with the Securities and Exchange Commission that attempt to advise interested parties of the risks and factors that may affect our business.

PART I

Item 1. DESCRIPTION OF BUSINESS.

Narrative Description of the Business

We plan to make early stage investments that will bring alternative energy technologies to commercialization and then actively manage these investments. We plan to generate management fees based on the size of the investments that we oversee and incentive income based on the performance of these investments. We also currently provide consulting to related parties with respect to their investments in alternative energy projects.

As to our investments, we will not limit ourselves to any single area of alternative energy. We will look at any and all forms of alternative energy. We actively screen investments with emphasis towards finding opportunities with potential for long term success.

Operations

We act as a consultant to with respect to client investments in alternative energy projects. We can perform due diligence and ongoing research and evaluation with respect to projects on a fee basis. We are currently generating revenues as a consultant.

We also plan to seek, develop, and manage alternative energy investments for our own account. We screen investments with emphasis towards finding opportunities with long term potential. We do not limit ourselves to any single area of alternative energy. We will look at any and all forms of alternative energy.

We have a proprietary investment screening process to make our investments. This process is based upon the experience of Mr. Brian Klemsz, our President, and outside consultants as we develop our company.

For four fiscal years prior to the current one, our operations have been profitable. However, at the end of the September 2013, our only client gave notice that effective December 31, 2013, it would terminate its asset management services agreement. With this termination, we no longer provide asset management services to any clients and have no current revenue source going forward. While we no longer currently have a source of revenue, we are pursuing new clients to replace the lost revenue stream and also exploring the possibility of merging with an existing company who has revenues and, potentially, earnings. At this time, we have no definitive arrangements for either replacing its lost revenue or identifying a merger candidate. To date, we have had no discussions with possible acquisition candidates.

We operate out of one office in Colorado. We have no specific plans at this point for additional offices. On January 1, 2008, we entered into a Service Agreement with Bohemian Companies, LLC to provide us with certain defined services. These services included financial, bookkeeping, accounting, legal and tax matters, as well as cash management, custody of assets, preparation of financial documents, including tax returns and checks, and coordination of professional service providers as may be necessary to carry out the matters covered by the Service Agreement. We compensated Bohemian Companies, LLC by reimbursing this entity for the allocable portion of the direct and indirect costs of each employee of Bohemian Companies, LLC. who performed services on our behalf. We received monthly invoices from Bohemian Companies, LLC. As of March 31, 2014, the Service Agreement was terminated by agreement of both parties.

Effective May 20, 2014, we amended our Articles of Incorporation to increase the number of authorized common shares to One Hundred Million (100,000,000) shares from Fifty Million (50,000,000) shares. The par value of the common shares remains at \$0.001 per share.

Markets

We believe that the primary reason that clients would procure services from us rather than competitors would be the existing relationships that we possess and can develop. We believe that client loyalty and satisfaction can be the basis for success in this business. Therefore, we plan to develop and expand on already existing relationships to develop a competitive edge. We utilize the expertise of our principal officer to market our proprietary investment screening process business

Raw Materials

The use of raw materials is not a factor in our operations at the present time. The use of raw materials may become a material factor in the future as we develop operations.

Customers and Competition

Our business plan involves acting as both a consultant and an investor in alternative energy technologies. This business is highly competitive. There are numerous similar companies providing such services in the United States of America. Our competitors will have greater financial resources and more expertise in this business. Our ability to develop our business will depend on our ability to successfully identify alternative energy technology investments in this highly competitive environment. We cannot guarantee that we will be able to do so successfully.

Over the past several years, the size and number of funds that focus on alternative energy technologies has continued to increase. If this trend continues, it is possible that it will become increasingly difficult for us to raise funds to grow our Company. Competition is based on a variety of factors, including:

- investment performance;
- investor perception of investment managers' drive, focus and alignment of interest;
- quality of service provided to and duration of relationship with investors;
- business reputation; and
- level of fees and expenses charged for services.

We compete with a large number of management firms and other financial institutions. A number of factors serve to increase our competitive risks:

- investors may develop concerns that we will allow a business to grow to the detriment of its performance;
- some of our competitors have greater capital, lower targeted returns or greater sector or investment strategy specific expertise than we do, which creates competitive disadvantages with respect to investment opportunities; some of our competitors may perceive risk differently than we do which could allow them either to outbid us for investments in particular sectors or, generally, to consider a wider variety of investments;
- there are relatively few barriers to entry impeding new private equity and hedge fund management firms, and the successful efforts of new entrants into our various lines of business, including former “star” portfolio managers at large diversified financial institutions as well as such institutions themselves, will continue to result in increased competition; and
- other industry participants could seek to recruit our best and brightest investment professionals away from us.

These and other factors could reduce our earnings and revenues and materially adversely affect our business.

Employees

We have one full-time employee: Mr. Klemsz. Mr. Klemsz does not draw a salary or receive any other kind of compensation. However, we reimburse our employee for all necessary and customary business related expenses. We have no plans or agreements which provide health care, insurance or compensation on the event of termination of employment or change in our control. We do not pay our Directors separately for any Board meeting they attend.

Proprietary Information

We have a proprietary investment screening process to make our investments. Otherwise, we own no proprietary information.

Government Regulation

At some point, we may be required to file to become a registered investment advisor, but we currently do not expect government regulations or environmental laws to have any material impact on us.

Research and Development

We have never spent any amount in research and development activities.

Environmental Compliance

We believe that we are not subject to any material costs for compliance with any environmental laws.

How to Obtain our SEC Filings

We file annual, quarterly, and special reports, proxy statements, and other information with the Securities Exchange Commission (SEC). Reports, proxy statements and other information filed with the SEC can be inspected and copied at the public reference facilities of the SEC at 100 F Street N.E., Washington, DC 20549. Such material may also be accessed electronically by means of the SEC's website at www.sec.gov.

Our investor relations department can be contacted at our principal executive office located at our principal office, 181 W. Boardwalk, Suite 202, Fort Collins, Colorado 80525. Our telephone number is (970) 223-4499. We do not have a corporate website.

1A. RISK FACTORS

You should carefully consider the risks and uncertainties described below and the other information in this prospectus before deciding to invest in shares of our common stock.

The occurrence of any of the following risks could materially and adversely affect our business, financial condition and operating result. In this case, the trading price of our common stock could decline and you might lose all or part of your investment.

Risks Related to Our Business and Industry

We have a limited operating history. While we were profitable for the last four fiscal years prior to the most recent one, we have lost our only current client, and we may never be profitable again. As a result, we could go out of business.

We were formed as a Colorado business entity in November, 2007. For four fiscal years, including last year, our operations were profitable. However, we have lost our only current client, and have not been able to replace the revenue in the last fiscal year. We cannot guarantee that we will be profitable again. If we do not continue to be profitable, we could go out of business.

We have relied upon one client for all of our revenues, which means that the loss of this client could potentially severely impact our operations. If we cannot replace the lost revenue or merge with a company, we could go out of business.

One client in fiscal year 2013 accounted for 100% of our revenues. This client was a related party, EastMountain Alternative Energy, LLC. EastMountain Alternative Energy, LLC gave notice to us that, effective December 31, 2013, it planned to terminate the asset management services contract it has with us. We could be materially impacted by the loss of this client. The loss of this one client makes us subject to uncertain revenue results. With the termination of the asset management services contract between us and EastMountain Alternative Energy, LLC, we no longer provide asset management services to any clients and have no current revenue source going forward. While we have lost our only source of revenue, we plan to seek additional clients to replace our lost revenue, although we have no definite arrangements at this point. In the alternative, we may seek a merger candidate, although we have not identified any definitive acquisitions at this time. We cannot guarantee that we will be able to replace our lost revenue or to identify a merger candidate. If we cannot either replace our lost revenue or identify a merger candidate, we may eventually cease business. An investor could lose his entire investment.

Our lack of operating history makes it difficult for us to evaluate our future business prospects and make decisions based on those estimates of our future performance. An investor could lose his entire investment.

We have a limited operating history. An investor has no frame of reference to evaluate our future business prospects. This makes it difficult, if not impossible, to evaluate us as an investment. An investor could lose his entire investment if our future business prospects do not result in our sustaining our current profitability.

If we do not generate adequate revenues to finance our operations, our business may fail.

We began generating revenues in 2008. As of December 31, 2014, we had a cash position of \$185,464 and an additional \$205,592 in Certificates of Deposit. Our operating costs for the fiscal year ended December 31, 2014 were \$52,492. These operating costs include insurance, taxes, utilities, maintenance, contract services and all other costs of operations. We will use contract employees who will be paid on an hourly basis as each investment transaction is evaluated. However, the operating costs and expected revenue generation are difficult to predict. Since there can be no assurances that revenues will be sufficient to cover operating costs for the foreseeable future, it may be necessary to raise additional funds. Due to our lack of operating history, raising additional funds may be difficult.

Competition in the alternative energy industry is intense.

Our business plan involves acting as a consultant and making investments in alternative energy projects. This business is highly competitive. There are numerous similar companies seeking such investments in the United States of America. Our competitors will have greater financial resources and more expertise in this business. Our ability to develop our business will depend on our ability to successfully develop investments in this highly competitive environment. We cannot guarantee that we will be able to do so successfully.

The share control position of WestMountain Green, LLC will limit the ability of other shareholders to influence corporate actions.

Our largest shareholder, WestMountain Green, LLC, of which Mr. Klemsz is a 16.8% member, owns 8,050,000 shares and thereby controls approximately 90% of our outstanding shares. Because WestMountain Green, LLC individually beneficially controls more than a majority of the outstanding shares, other shareholders, individually or as a group, will be limited in their ability to effectively influence the election or removal of our directors, the supervision and management of our business or a change in control of or sale of our company, even if they believed such changes were in the best interest of our shareholders.

Our future success depends, in large part, on the continued service of our President and Treasurer and the continued financing of WestMountain Green, LLC.

We depend almost entirely on the efforts and continued employment of Mr. Klemsz, our President and Treasurer. Mr. Klemsz is our primary executive officer, and we will depend on him for nearly all aspects of our operations. In addition, WestMountain Green, LLC, is our only source of external financing. We do not have an employment contract with Mr. Klemsz, and we do not carry key person insurance on his life. The loss of the services of Mr. Klemsz through incapacity or otherwise, would have a material adverse effect on our business. It would be very difficult to find and retain qualified personnel such as Mr. Klemsz and a financing source to replace WestMountain Green, LLC. At the present time, there is no contractual commitment for WestMountain Green, LLC to fund us.

Our revenue and profitability fluctuate, particularly inasmuch as we cannot predict the timing of realization events in developing future investments, which may make it difficult for us to achieve steady earnings growth on a quarterly basis and may cause volatility in the price of our shares.

We may experience significant variations in revenues and profitability during the year. The timing and receipt of income generated by bringing new alternative energy projects to market is event driven and thus highly variable, which contributes to the volatility of our revenue, and our ability to realize incentive income from our funds may be limited. We cannot predict when, or if, any realization of investments will occur. If we were to have a realization event in a particular quarter, it may have a significant impact on our revenues and profits for that particular quarter which may not be replicated in subsequent quarters. In addition, our equity investments are adjusted for accounting purposes to fair value at the end of each quarter, resulting in revenue attributable to our principal investments, even though we receive no cash distributions from our equity funds, which could increase the volatility of our quarterly earnings.

Difficult market conditions can adversely affect our funds in many ways, including reducing the value or performance of the investments we make in our investments and reducing the ability of our company to raise or deploy capital, which could materially reduce our revenue and results of operations.

If economic conditions are unfavorable our projects may not perform well and we may not be able to raise money in existing or new projects. Our investments will be materially affected by conditions in the global financial markets and economic conditions throughout the world. The global market and economic climate may deteriorate because of many factors beyond our control, including rising interest rates or inflation, terrorism or political uncertainty. In the event of a market downturn, our businesses could be affected in different ways.

A general market downturn, or a specific market dislocation, may cause our revenue and results of operations to decline by causing:

- The value of our investments to decrease;
- lower investment returns, reducing incentive income; and
- material reductions in the value of our ownership in investments.

Furthermore, while difficult market conditions may increase opportunities to make certain alternative energy investments, such conditions also increase the risk of default with respect to investments held by us with debt investments.

The success of our business depends, in part, upon proprietary technologies and information which may be difficult to protect and may infringe on the intellectual property rights of third parties.

We believe that the identification, acquisition and development of proprietary technologies are key drivers of our business. Our success depends, in part, on our ability to obtain patents, license the patents of others, maintain the secrecy of our proprietary technology and information, and operate without infringing on the proprietary rights of third parties. We currently do not license any patents. We cannot assure you that the patents of others will not have an adverse effect on our ability to conduct our business, that the patents that we license will provide us with competitive advantages or will not be challenged by third parties, that we will acquire additional proprietary technology that is patentable or that any patents issued to us will provide us with competitive advantages or will not be challenged by third parties. Further, we cannot assure you that others will not independently develop similar or superior technologies, duplicate elements of any technology we may own or design around it.

In order to successfully commercialize any proprietary technologies, it is possible that we may need to acquire licenses to, or to contest the validity of, issued or pending patents or claims of third parties. We cannot assure you that any license acquired under such patents would be made available to us on acceptable terms, if at all, or that we would prevail in any such contest. In addition, we could incur substantial costs in defending ourselves in suits brought against us for alleged infringement of another party's patents or in defending the validity or enforceability of our patents, or in bringing patent infringement suits against other parties based on our patents.

In addition to the protection afforded by patents, we may also rely on trade secrets, proprietary know-how and technology that we seek to protect, in part, by confidentiality agreements with our prospective joint venture partners, employees and consultants. We cannot assure you that these agreements will not be breached, that we will have adequate remedies for any such breach, or that our trade secrets and proprietary know-how will not otherwise become known or be independently discovered by others.

Because we are smaller and have fewer financial and other resources than many alternative energy companies, we may not be able to successfully compete in the very competitive alternative energy industry.

Alternative energy functions as a commodity. There is significant competition among existing alternative energy producers. Our business could face competition from a number of producers that can produce significantly greater volumes of alternative energy than we can or expect to produce, producers that can produce a wider range of products than we can, and producers that have the financial and other resources that would enable them to expand their production rapidly if they chose to. These producers may be able to achieve substantial economies of scale and scope, thereby substantially reducing their fixed production costs and their marginal production costs. If these producers are able to substantially reduce their marginal production costs, the market price of alternative energy products may decline and we may not be able to produce alternative energy products at a cost that allows us to operate profitably. Even if we are able to operate profitably, these other producers may be substantially more profitable than us, which may make it more difficult for us to raise any financing necessary for us to achieve our business plan and may have a materially adverse effect on the market price of our common stock.

Increased alternative energy production in the United States could increase the demand for feedstocks and the resulting price of feedstocks, reducing our profitability.

New alternative energy projects are under construction throughout the United States. Increased production from alternative energy sources could increase feedstock demand and prices, resulting in higher production costs and lower profits.

Price increases or interruptions in needed energy supplies could cause loss of customers and impair our profitability.

Alternative energy production requires a constant and consistent supply of energy. If there is any interruption in our supply of energy for whatever reason, such as availability, delivery or mechanical problems, we may be required to halt production. If we halt production for any extended period of time, it will have a material, adverse effect on our business. Natural gas and electricity prices have historically fluctuated significantly. We expect to purchase significant amounts of these resources as part of our alternative energy production. Increases in the price of natural gas or electricity would harm our business and financial results by increasing our energy costs.

The Current Drop in Oil and Natural Gas Prices May have a negative impact on alternative energy production in general and us in particular.

The Current drop in oil and natural gas prices may have an effect on alternative energy production. Whether this drop has an effect will depend upon the oversupply of oil and natural gas compared to the demand for these products and their pricing compared to alternative energy sources. We believe that if the oversupply of oil and natural gas continues for any substantial amount of time, alternative energy production may be negatively affected, which would have an effect on our ability to develop an alternative energy plan for our Company and would negatively affect us. However, we are unable at this time to predict the outcome of this current drop in oil and natural gas prices on us.

Risks Related to Government Regulation and Subsidization

The United States alternative energy industry is highly dependent upon federal and state legislation and regulation and any changes in that legislation or regulation could materially adversely affect our results of operations and financial condition. The elimination or significant reduction in the federal tax incentive could have a material adverse effect on our results of operations.

The production of alternative energy has historically been related to federal tax incentives. The elimination or significant reduction in the federal tax incentives on any or all alternative energy projects could negatively impact or proposed operations.

Lax enforcement of environmental and energy policy regulations may adversely affect the demand for alternative energy products.

Our success will depend, in part, on effective enforcement of existing environmental and energy policy regulations. Many of our potential customers are unlikely to switch from the use of conventional fuels unless compliance with applicable regulatory requirements leads, directly or indirectly, to the use of alternative energy. Both additional regulation and enforcement of such regulatory provisions are likely to be vigorously opposed by the entities affected by such requirements. If existing emissions-reducing standards are weakened, or if governments are not active and effective in enforcing such standards, our business and results of operations could be adversely affected. Even if the current trend toward more stringent emissions standards continues, our future prospects will depend on the ability of alternative energy to satisfy these emissions standards more efficiently than other existing technologies. Certain standards imposed by regulatory programs may limit or preclude the use of our products to comply with environmental or energy requirements. Any decrease in the emission standards or the failure to enforce existing emission standards and other regulations could result in a reduced demand for alternative energy products. A significant decrease in the demand for alternative energy products will reduce the price of such products, adversely affect our profitability and decrease the value of your stock.

Costs of compliance with burdensome or changing environmental and operational safety regulations could cause our focus to be diverted away from our business and our results of operations to suffer.

We expect to be subject to complicated environmental regulations of the U.S. Environmental Protection Agency and regulations and permitting requirements of the various states with respect to our alternative energy projects. These regulations are subject to change and such changes may require additional capital expenditures or increased operating costs. Consequently, considerable resources may be required to comply with future environmental regulations. We do not currently expect to incur material capital expenditures for environmental controls in this or the succeeding fiscal year. In addition, our proposed projects could be subject to environmental nuisance or related claims by employees, property owners or residents near our projects arising from air or water discharges. Environmental and public nuisance claims, or tort claims based on emissions, or increased environmental compliance costs could significantly increase our operating costs.

Any new alternative energy plants will be subject to federal and state laws regarding occupational safety. Risks of substantial compliance costs and liabilities are inherent in alternative energy production. We may be subject to costs and liabilities related to worker safety and job related injuries, some of which may be significant. Possible future developments, including stricter safety laws for workers and other individuals, regulations and enforcement policies and claims for personal or property damages resulting from operation of our projects could reduce the amount of cash that would otherwise be available to further enhance our business.

Risks Related to an Investment in Our Common Stock

The lack of a broker or dealer to create or maintain a market in our stock could adversely impact the price and liquidity of our securities.

We have no agreement with any broker or dealer to act as a market maker for our securities and there is no assurance that we will be successful in obtaining any market makers. Thus, no broker or dealer will have an incentive to make a market for our stock. The lack of a market maker for our securities could adversely influence the market for and price of our securities, as well as your ability to dispose of, or to obtain accurate information about, and/or quotations as to the price of, our securities.

We have limited experience as a public company.

We have only operated as a public company since January, 2009. We trade on the OTC Bulletin Board under the trading symbol WETM. Thus, we have limited experience in complying with the various rules and regulations which are required of a public company. As a result, we may not be able to operate successfully as a public company, even if our operations are successful. We plan to comply with all of the various rules and regulations which are required of a public company. However, if we cannot operate successfully as a public company, your investment may be materially adversely affected. Our inability to operate successfully as a public company could be the basis of your losing your entire investment in us.

We may be required to register under the Investment Company Act of 1940, or the Investment Advisors Act, which could increase the regulatory burden on us and could negatively affect the price and trading of our securities.

Because our proposed business involves, in part, the identification, acquisition and development of alternative energy investments, we may be required to register as an investment company under the Investment Company Act of 1940 or the Investment Advisors Act and analogous state law. While we believe that we are currently either not an investment company or an investment advisor or are exempt from registration as an investment company under the Investment Company Act of 1940 or the Investment Advisors Act and analogous state law, either the SEC or state regulators, or both, may disagree and could require registration either immediately or at some point in the future. As a result, there could be an increased regulatory burden on us which could negatively affect the price and trading of our securities.

We may be impacted by new regulatory requirements as a result of the passage of the Dodd-Frank Act.

In July, 2010, Congress enacted the Dodd-Frank Act, which instituted major changes in the regulatory regime for public companies, particularly those in the financial sector. At the present time, we do not believe that we will be impacted in a material way by this legislation. However, the implementation of the provisions of the Dodd-Frank Act are subject to regulations which have not yet been written and its statutory provisions have not been the subject of extensive judicial review, so we cannot guarantee that we may not come under its purview at some point in the future and be affected negatively by it.

Our stock has a limited public trading market and there is no guarantee a trading market will ever develop for our securities.

There has been, and continues to be, a limited public market for our common stock. An active trading market for our shares has not, and may never develop or be sustained. If you purchase shares of common stock, you may not be able to resell those shares at or above the initial price you paid. The market price of our common stock may fluctuate significantly in response to numerous factors, some of which are beyond our control, including the following:

- * actual or anticipated fluctuations in our operating results;
- * changes in financial estimates by securities analysts or our failure to perform in line with such estimates;
- * changes in market valuations of other companies, particularly those that market services such as ours;
- * announcements by us or our competitors of significant innovations, acquisitions, strategic partnerships, joint ventures or capital commitments;
- * introduction of product enhancements that reduce the need for the products our projects may develop;
- * departures of key personnel.

Of our total outstanding shares as of December 31, 2014, a total of 8,325,000, or approximately 91.4%, will be restricted from immediate resale but may be sold into the market in the near future. This could cause the market price of our common stock to drop significantly, even if our business is doing well.

As restrictions on resale end, the market price of our stock could drop significantly if the holders of restricted shares sell them or are perceived by the market as intending to sell them.

Applicable SEC rules governing the trading of “Penny Stocks” limit the liquidity of our common stock, which may affect the trading price of our common stock.

Our common stock currently trades from time to time and always below \$5.00 per share. As a result, our common stock is considered a "penny stock" and is subject to SEC rules and regulations that impose limitations upon the manner in which our shares can be publicly traded. These regulations require the delivery, prior to any transaction involving a penny stock, of a disclosure schedule explaining the penny stock and the associated risks. Under these regulations, certain brokers who recommend such securities to persons other than established customers or certain accredited investors must make a special written suitability determination for the purchaser and receive the written purchaser's agreement to a transaction prior to purchase. These regulations have the effect of limiting the trading activity of our common stock and reducing the liquidity of an investment in our common stock.

The over-the-counter market for stock such as ours is subject to extreme price and volume fluctuations.

The securities of companies such as ours have historically experienced extreme price and volume fluctuations during certain periods. These broad market fluctuations and other factors, such as new product developments and trends in the our industry and in the investment markets generally, as well as economic conditions and quarterly variations in our operational results, may have a negative effect on the market price of our common stock.

Buying low-priced penny stocks is very risky and speculative.

Our common shares are defined as a penny stock under the Securities and Exchange Act of 1934, and rules of the Commission. The Exchange Act and such penny stock rules generally impose additional sales practice and disclosure requirements on broker-dealers who sell our securities to persons other than certain accredited investors who are, generally, institutions with assets in excess of \$5,000,000 or individuals with net worth in excess of \$1,000,000, exclusive of the value of principal residence, or annual income exceeding \$200,000, or \$300,000 jointly with spouse, or in transactions not recommended by the broker-dealer. For transactions covered by the penny stock rules, a broker-dealer must make a suitability determination for each purchaser and receive the purchaser's written agreement prior to the sale. In addition, the broker-dealer must make certain mandated disclosures in penny stock transactions, including the actual sale or purchase price and actual bid and offer quotations, the compensation to be received by the broker-dealer and certain associated persons, and deliver certain disclosures required by the Commission. Consequently, the penny stock rules may affect the ability of broker-dealers to make a market in or trade our common stock and may also affect your ability to resell any shares you may purchase in the public markets.

Issuances of our stock could dilute current shareholders and adversely affect the market price of our common stock, if an active public trading market develops.

We have the authority to issue up to 100,000,000 shares of common stock, 1,000,000 shares of preferred stock, and to issue options and warrants to purchase shares of our common stock without stockholder approval. Although no financing is planned currently, we may need to raise additional capital to fund operating losses. If we raise funds by issuing equity securities, our existing stockholders may experience substantial dilution. In addition, we could issue large blocks of our common stock to fend off unwanted tender offers or hostile takeovers without further stockholder approval.

The issuance of preferred stock by our board of directors could adversely affect the rights of the holders of our common stock. An issuance of preferred stock could result in a class of outstanding securities that would have preferences with respect to voting rights and dividends and in liquidation over the common stock and could, upon conversion or otherwise, have all of the rights of our common stock. Our board of directors' authority to issue preferred stock could discourage potential takeover attempts or could delay or prevent a change in control through merger, tender offer, proxy contest or otherwise by making these attempts more difficult or costly to achieve.

Colorado law and our Articles of Incorporation protect our directors from certain types of lawsuits, which could make it difficult for us to recover damages from them in the event of a lawsuit.

Colorado law provides that our directors will not be liable to our company or to our stockholders for monetary damages for all but certain types of conduct as directors. Our Articles of Incorporation require us to indemnify our directors and officers against all damages incurred in connection with our business to the fullest extent provided or allowed by law. The exculpation provisions may have the effect of preventing stockholders from recovering damages against our directors caused by their negligence, poor judgment or other circumstances. The indemnification provisions may require our company to use our assets to defend our directors and officers against claims, including claims arising out of their negligence, poor judgment, or other circumstances.

We do not expect to pay dividends on common stock.

We have not paid any cash dividends with respect to our common stock, and it is unlikely that we will pay any dividends on our common stock in the foreseeable future. Earnings, if any, that we may realize will be retained in the business for further development and expansion.

ITEM 2. DESCRIPTION OF PROPERTY.

Our principal executive offices are located at 181 W. Boardwalk, Suite 202, Fort Collins, Colorado 80525, and our telephone number is (970) 223-4499. We signed a two year lease for a total of 565 square feet of office space at a price of \$188 per month plus costs associated with yearly common area fees. For the fiscal current year, the additional cost will be \$61. We own no real estate nor have plans to acquire any real estate.

ITEM 3. LEGAL PROCEEDINGS.

We are not a party to any material legal proceedings, nor is our property the subject of any material legal proceeding.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

We held no shareholders meeting in the fourth quarter of our fiscal year.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Holders

As of January 12, 2015, there were fifty-nine record holders of our common stock and there were 9,106,250 shares of our common stock outstanding.

Market Information

A limited public market currently exists for shares of our common stock. We began trading on the Over-the-Counter Bulletin Board under the trading symbol WETM in January, 2009.

The following table sets forth the high and low closing bid prices of our common stock on for the periods indicated in 2014 and 2013.

	Closing Bid Price	
	High	Low
2014		
First Quarter	\$ 1.01	\$ 1.01
Second Quarter	\$ 1.01	\$ 0.30
Third Quarter	\$ 0.30	\$ 0.30
Fourth Quarter	\$ 0.30	\$ 0.30

	Closing Bid Price	
	High	Low
2013		
First Quarter	\$ 1.01	\$ 1.01
Second Quarter	\$ 1.01	\$ 1.01
Third Quarter	\$ 1.01	\$ 1.01
Fourth Quarter	\$ 1.01	\$ 1.01

On January 16, 2015, the closing bid price of our common stock in the OTC Bulletin Board was \$0.30 per share and we had no trading volume that day.

The Securities Enforcement and Penny Stock Reform Act of 1990

The Securities and Exchange Commission has also adopted rules that regulate broker-dealer practices in connection with transactions in penny stocks. Penny stocks are generally equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the Nasdaq system, provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system).

A purchaser is purchasing penny stock which limits the ability to sell the stock. Our shares will remain penny stocks for the foreseeable future. The classification of penny stock makes it more difficult for a broker-dealer to sell the stock into a secondary market, which makes it more difficult for a purchaser to liquidate his/her investment. Any broker-dealer engaged by the purchaser for the purpose of selling his or her shares in us will be subject to Rules 15g-1 through 15g-10 of the Securities and Exchange Act. Rather than creating a need to comply with those rules, some broker-dealers will refuse to attempt to sell penny stock.

The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from those rules, to deliver a standardized risk disclosure document prepared by the Commission, which:

- contains a description of the nature and level of risk in the market for penny stocks in both public offerings and secondary trading;
- contains a description of the broker's or dealer's duties to the customer and of the rights and remedies available to the customer with respect to a violation to such duties or other requirements of the Securities Act of 1934, as amended;
- contains a brief, clear, narrative description of a dealer market, including "bid" and "ask" prices for penny stocks and the significance of the spread between the bid and ask price;
- contains a toll-free telephone number for inquiries on disciplinary actions;
- defines significant terms in the disclosure document or in the conduct of trading penny stocks; and
- contains such other information and is in such form (including language, type, size and format) as the Securities and Exchange Commission shall require by rule or regulation;

The broker-dealer also must provide, prior to effecting any transaction in a penny stock, to the customer:

- the bid and offer quotations for the penny stock;
- the compensation of the broker-dealer and its salesperson in the transaction;
- the number of shares to which such bid and ask prices apply, or other comparable information relating to the depth and liquidity of the market for such stock; and
- monthly account statements showing the market value of each penny stock held in the customer's account.

In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from those rules; the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written acknowledgment of the receipt of a risk disclosure statement, a written agreement to transactions involving penny stocks, and a signed and dated copy of a written suitability statement. These disclosure requirements will have the effect of reducing the trading activity in the secondary market for our stock because it will be subject to these penny stock rules. Therefore, stockholders may have difficulty selling their securities.

Equity Compensation Plan Information

We have no outstanding stock options or other equity compensation plans.

Stock Transfer Agent

The stock transfer agent for our securities is Corporate Stock Transfer of Denver, Colorado. Their address is 3200 Cherry Creek Drive South, Suite 430, Denver, Colorado 80209. Their phone number is (303) 282-4800.

Dividend Policy

We have not previously declared or paid any dividends on our common stock and do not anticipate declaring any dividends in the foreseeable future. The payment of dividends on our common stock is within the discretion of our board of directors. We intend to retain any earnings for use in our operations and the expansion of our business. Payment of dividends in the future will depend on our future earnings, future capital needs and our operating and financial condition, among other factors that our board of directors may deem relevant. We are not under any contractual restriction as to our present or future ability to pay dividends.

ITEM 6. SELECTED FINANCIAL DATA

A smaller reporting company is not required to provide the information in this Item.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Management's Discussion and Analysis contains forward-looking statements that involve future events, our future performance and our expected future operations and actions. In some cases, you can identify forward-looking statements by the use of words such as "may", "will", "should", "anticipate", "believe", "expect", "plan", "future", "intend", "could", "estimate", "predict", "hope", "potential", "continue", or the negative of these terms or other similar expressions. These forward-looking statements are only our predictions and involve numerous assumptions, risks and uncertainties. Our actual results or actions may differ materially from these forward-looking statements for many reasons, including, but not limited to, the matters discussed in this report under the caption "Risk Factors". We urge you not to place undue reliance on these forward-looking statements, which speak only as of the date of this prospectus. We undertake no obligation to publicly update any forward looking-statements, whether as a result of new information, future events or otherwise.

The following discussion of our financial condition and results of operations should be read in conjunction with our financial statements and the related notes included in this report.

General

We plan to make early stage investments that will bring alternative energy technologies to commercialization, and then actively manage these investments. We also currently provide consulting to clients with respect to their investments in alternative energy projects. EastMountain Alternative Energy, LLC, a related party, gave notice that, effective December 31, 2013 it would terminate the asset management services contract it had with us. Historically, we earned management fees based on the size of the funds managed, and incentive income based on the performance of the funds. With the termination of the asset management services contract between us and EastMountain Alternative Energy, LLC, we currently no longer provide asset management services to any clients and have no current revenue source going forward. While we lost our only current source of revenue, we are pursuing new clients to replace the lost revenue stream and also exploring the possibility of merging with an existing company who has revenues and, potentially, earnings. At this time, we have no definitive arrangements for either replacing our lost revenue or identifying a merger candidate.

As to our investments, we will not limit ourselves to any single area of alternative energy. We will look at any and all forms of alternative energy. We actively screen investments with emphasis towards finding opportunities with potential for long term success.

Effective May 20, 2014, we amended our Articles of Incorporation to increase the number of authorized common shares to One Hundred Million (100,000,000) shares from Fifty Million (50,000,000) shares. The par value of the common shares remains at \$0.001 per share.

Our principal business address is 181 W Boardwalk, Suite 202, Fort Collins, Colorado 80525. Our phone number is (970) 223-4499. We operate out of one office in Colorado. We have no specific plans at this point for additional offices.

Bohemian Companies, LLC and BOCO Investments, LLC are two companies under common control. Mr. Klemsz, our President, has been the Chief Investment Officer of BOCO Investments, LLC since March 2007. Since there is common control between the two companies and a relationship with our Company President, we are considering all transactions with Bohemian Companies, LLC and BOCO Investments, LLC. related party transactions.

On January 1, 2008, we entered into a Service Agreement with Bohemian Companies, LLC to provide us with certain defined services. These services included financial, bookkeeping, accounting, legal and tax matters, as well as cash management, custody of assets, preparation of financial documents, including tax returns and checks, and coordination of professional service providers as may be necessary to carry out the matters covered by the Service Agreement. We compensated Bohemian Companies, LLC by reimbursing this entity for the allocable portion of the direct and indirect costs of each employee of Bohemian Companies, LLC that performed services on our behalf. As of March 31, 2014, the Service Agreement was terminated by agreement of both parties.

We have not been subject to any bankruptcy, receivership or similar proceedings.

Results of Operations

For the year ended December 31, 2014 we had revenues of \$-0-. In the comparison year ended December 31, 2013 we had revenues of \$77,697. All revenues were generated from a related party, EastMountain Alternative Energy, LLC. Revenues are based upon EastMountain Alternative Energy, LLC's committed capital and is reduced by both realized and unrealized losses.

For the years ended December 31, 2014 and 2013 operating expenses were \$52,492 and \$71,970, respectively. The major component of general and administrative expenses is professional fees.

For the year ended December 31, 2014 we had a net loss of \$52,820. In comparison for the year ended December 31, 2013 we had net income of \$6,052. In 2015, the Company booked a full tax allowance against its deferred tax asset.

Our ability to maintain profitability and positive cash flow is dependent upon our ability our ability to generate revenues, and to a lesser extent, to successfully develop investments.

One client in fiscal year 2013 accounted for 100% of our revenues. This client was a related party, EastMountain Alternative Energy, LLC. EastMountain Alternative Energy, LLC gave notice to us that, effective December 31, 2013, it planned to terminate the asset management services contract it has with us. We could be materially impacted by the loss of this client. The loss of this one client makes us subject to uncertain revenue results. With the termination of the asset management services contract between us and EastMountain Alternative Energy, LLC, we no longer provide asset management services to any clients and have no current revenue source going forward.

To try to operate at a break-even level based upon our current level of proposed business activity, we believe that we must generate approximately \$80,000 in revenue per year. However, if our forecasts are inaccurate, we will need to raise additional funds.

On the other hand, we may choose to scale back our operations to operate at break-even with a smaller level of business activity, while adjusting our overhead to meet the revenue from current operations. In addition, we expect that we will need to raise additional funds if we decide to pursue more rapid expansion, the development of new or enhanced services or products, appropriate responses to competitive pressures, or the acquisition of complementary businesses or technologies, or if we must respond to unanticipated events that require us to make additional investments. We cannot assure that additional financing will be available when needed on favorable terms, or at all.

We expect to incur operating profits in future periods when we have developed new revenue sources.

Liquidity and Capital Resources.

As of December 31, 2014, we had cash of \$185,464 and \$205,592 in certificates of deposit.

For the year ended December 31, 2014 net cash used in operating activities was \$39,466, while for the year ended December 31, 2013 net cash provided by operating activities was \$31,801.

For the year ended December 31, 2014 net cash used in investing activities was \$126 while for the year ended December 31, 2013 we had net cash used in investing activities of \$14,131.

For the years ended December 31, 2014 and December 31, 2013 we had net cash provided by financing activities of \$-0-.

Currently, we believe that we have sufficient capital in the next twelve months for our current level of operations. While we lost our only source of revenue, effective December 31, 2013, we continue to seek replacement clients, although we have no definite arrangements at this point. In the alternative, we may seek a merger candidate, although we have not identified any definitive acquisitions at this time. We do not anticipate needing to raise additional capital resources in the next twelve months.

Our principal source of liquidity historically was our cash flow generated from our operations. Our business activity is closely tied to the U.S. economy. Our ability to maintain profitability and positive cash flow is dependent upon our ability to successfully develop alternative energy investments, provide consulting to related parties with respect to their investments in alternative energy projects and our ability to generate revenues.

In any case, we try to operate with minimal overhead. Our primary activity will be to seek to develop alternative energy investments and, consequently, increase our revenues. We cannot guarantee that this will ever occur. Our plan is to build our company in any manner which will be successful.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements with any party.

Critical Accounting Policies

Our discussion and analysis of results of operations and financial condition are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. We evaluate our estimates on an ongoing basis, including those related to provisions for uncollectible accounts receivable, inventories, valuation of intangible assets and contingencies and litigation. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The accounting policies that we follow are set forth in Note 1 to our financial statements as included in this prospectus. These accounting policies conform to accounting principles generally accepted in the United States, and have been consistently applied in the preparation of the financial statements.

Recently Issued Accounting Pronouncements

None that will materially affect the Company.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK.

A smaller reporting company is not required to provide the information in this Item 7A.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Stockholders and Board of Directors
WestMountain Alternative Energy, Inc.
Fort Collins, Colorado

We have audited the accompanying balance sheets of WestMountain Alternative Energy, Inc. (the "Company") as of December 31, 2014 and 2013, and the related statements of operations, shareholders' equity, and cash flows for each of the years then ended. The Company's management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2014 and 2013, and the results of its operations and its cash flows for each of the years then ended in conformity with accounting principles generally accepted in the United States of America.

WestMountain Alternative Energy, Inc.
Notes to the Financial Statements

1) Nature of Organization and Summary of Significant Accounting Policies

Nature of Organization and Basis of Presentation

WestMountain Alternative Energy, Inc. (the "Company") was incorporated in the state of Colorado on November 13, 2007 and on this date approved its business plan and commenced operations. The Company was in the development stage through December 31, 2010.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid securities with original maturities of three months or less when acquired to be cash equivalents. As of December 31, 2014 and 2013 there were no cash equivalents.

Accounts Receivable

Accounts receivable consists of amounts due from the management fees. The Company considers accounts more than 30 days old to be past due. The Company uses the allowance method for recognizing bad debts. When an account is deemed uncollectible, it is written off against the allowance. Management records reasonable allowances to fairly represent accounts receivable amounts that are collectable. For the years ended December 31, 2014 and 2013, the Company did not consider an allowance for doubtful accounts necessary.

Revenue

The Company generates revenue by earning consulting fees and raising, investing and managing private equity and direct investment funds for high net worth individuals and institutions. Revenue is recognized through management fees based on the size of the funds that are managed and incentive income based on the performance of these funds.

Incentive revenue is recognized under the full accrual method. Under the full accrual method, profit may be realized in full when funds are invested and managed, provided (1) the profit is determinable and (2) the earnings process is virtually complete (the Company is not obligated to perform significant activities).

Fair Value of Financial Instruments

The carrying value of cash and cash equivalents, certificates of deposit and accrued liabilities, as reflected in the balance sheets, approximate fair value because of the short-term maturity of these instruments.

Property, Equipment and Depreciation

Property and equipment are stated at cost. Depreciation is calculated using the straight-line method over the estimated useful lives of the related assets, ranging from three to seven years. Expenditures for repairs and maintenance are charged to expense when incurred. Expenditures for major renewals and betterments, which extend the useful lives of existing property and equipment, are capitalized and depreciated. Upon retirement or disposition of property and equipment, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is recognized in the statements of operations.

Income Taxes

The Company recognizes deferred tax liabilities and assets for the expected future tax consequences of events that have been included in the financial statements or tax returns. Under this method, deferred tax liabilities and assets are determined based on the difference between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect for the year in which the differences are expected to reverse. Considerable judgment is required in determining when these events may occur and whether recovery of an asset, including the utilization of a net operating loss or other carryforward prior to its expiration, is more likely than not.

WestMountain Alternative Energy, Inc.
Notes to the Financial Statements

(1) Nature of Organization and Summary of Significant Accounting Policies (continued)

The Company has analyzed filing positions in all of the federal and state jurisdictions where it is required to file income tax returns, as well as all open tax years in these jurisdictions. The Company has identified its federal tax return and its state tax return in Colorado as “major” tax jurisdictions, as defined. The tax years 2010-2014 remain open to examination. We are not currently under examination by the Internal Revenue Service or any other jurisdiction. The Company believes that its income tax filing positions and deductions will be sustained on audit and does not anticipate any adjustments that will result in a material adverse effect on the Company’s financial condition, results of operations, or cash flow. Therefore, no reserves for uncertain income tax positions have been recorded.

Fiscal Year-end

The Company operates on a December 31 year-end.

Subsequent Events

The Company has evaluated all subsequent events through the auditors’ report date, which is the date the financial statements were available for issuance.

(2) Certificates of Deposit

The Company has made it a policy to invest funds over and above the forecasted operating expenses in certificates of deposit. Certificate of deposits typically have contractual maturities of 90-180 days.

(3) Property and Equipment

The Company's property and equipment consists of a computer and related software. For the year ended December 31, 2014 the Company recorded \$4,654 in depreciation expense and \$2,373 for the year ended December 31, 2013. During the 2013 year we purchased new equipment in the amount of \$9,712 and software in the amount of \$4,250. The equipment and software will be fully depreciated in three years.

(4) Income Taxes

Income taxes consists of the following:

Provision for taxes

	<u>2014</u>	<u>2013</u>
Current:		
Federal	\$ -	\$ (1,270)
State	-	-
Total current	<u>-</u>	<u>(1,270)</u>
Deferred:		
Federal	362	885
State	95	233
Total deferred	<u>457</u>	<u>1,118</u>
Income tax expense (benefit)	<u>\$ 457</u>	<u>\$ (152)</u>

WestMountain Alternative Energy, Inc.
Notes to the Financial Statements

(4) Income Taxes (Continued)

Deferred taxes consists of:

	December 31,	
	2014	2013
Deferred tax assets (Liabilities):		
Compensation Accruals	-	-
Bad Debt Expenses	-	-
Prepaid Expenses	\$ (1,634)	\$ (110)
Fixed Assets	(86)	(780)
Unrealized Losses	-	-
Net operating loss and other carryforwards	10,914	1,347
Accumulated Other Comprehensive Income	-	-
Other	-	-
Total deferred tax asset / (Liability) net	<u>9,194</u>	<u>457</u>
Total deferred tax assets / (Liabilities)	9,194	457
Valuation allowance	(9,194)	-

Net change in deferred income tax assets and liabilities associated with Other Comprehensive Income	-	-
Deferred income tax provision for the period	<u>457</u>	<u>1,118</u>

WestMountain Alternative Energy, Inc.
Notes to the Financial Statements

(5) Related Parties

Bohemian Companies, LLC and BOCO Investments, LLC are two companies under common control. Mr. Klemsz, our President, has been the Chief Investment Officer of BOCO Investments, LLC since March 2007. Since there is common control between the two companies and a relationship with our Company President, we are considering all transactions with Bohemian Companies, LLC, related party transactions.

On January 1, 2008, we entered into a Service Agreement with Bohemian Companies, LLC, to provide us with certain defined services. These services included financial, bookkeeping, accounting, legal and tax matters, as well as cash management, custody of assets, preparation of financial documents, including tax returns and checks, and coordination of professional service providers as may be necessary to carry out the matters covered by the Service Agreement. We compensated Bohemian Companies, LLC by reimbursing this entity for the allocable portion of the direct and indirect costs of each employee of Bohemian Companies, LLC that performed services on our behalf.

This Service Agreement was for the term of one year, ending December 31, 2009 but has been extended to March 31, 2014, when the Service Agreement was terminated by agreement of both parties. Total expenses incurred with Bohemian Companies were \$3,000 for the year ended December 31, 2014 and \$12,000 for the year ended December 31, 2013. As of December 31, 2014 the Company had no balance due to Bohemian Companies, LLC.

For the year ended December 31, 2013, we recorded \$77,697 in revenue for management fees charged to EastMountain Alternative Energy, Inc., a related party through its ownership interest in WestMountain Green, LLC. We earn management fees based on the amount of funds managed, and incentive income based on the performance of the funds. As of December 31, 2013 we recorded \$19,390 as an accounts receivable that represents the fourth quarter management fees that are due to us from EastMountain Alternative Energy, LLC, which have been paid. The asset management services contract with EastMountain Alternative Energy, LLC was terminated effective December 31, 2013.

The Company entered into an agreement with SP Business Solutions (“SP”) to provide accounting and related services for the Company. The owner, Joni Troska, was appointed Secretary of WestMountain Alternative Energy, Inc. on March 19, 2010, and is considered to be a related party. As of December 31, 2014, an accrual of \$800 has been recorded for unpaid services.

ITEM 9. DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

We did not have any disagreements on accounting and financial disclosures with our present accounting firm during the reporting period.

ITEM 9A(T). CONTROLS AND PROCEDURES.

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

Under the supervision and with the participation of our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the Exchange Act). As a result of this evaluation, we identified no material weaknesses in our internal control over financial reporting as of December 31, 2014. Accordingly, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of December 31, 2014.

Management's Annual Report on Internal Control Over Financial Reporting.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) and 15d-(f) under the Exchange Act. Our internal control over financial reporting are designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with U. S. generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that:

- i. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;
- ii. provide reasonable assurance that transactions are recorded as necessary to permit the preparation of our consolidated financial statements in accordance with U. S. generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and
- iii. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the consolidated financial statements.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2014. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission in Internal Control-Integrated Framework.

Management has concluded that our internal control over financial reporting was effective as of December 31, 2014.

Inherent Limitations Over Internal Controls

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations, including the possibility of human error and circumvention by collusion or overriding of controls. Accordingly, even an effective internal control system may not prevent or detect material misstatements on a timely basis. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Changes in Internal Control Over Financial Reporting.

We have made no change in our internal control over financial reporting during the last fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Attestation Report of the Registered Public Accounting Firm.

This annual report does not include an attestation report of our independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our independent registered public accounting firm pursuant to temporary rules of the SEC that permit us to provide only management's report in this annual report on Form 10-K.

ITEM 9B. OTHER INFORMATION.

Nothing to report.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS, AND CORPORATE GOVERNANCE

Set forth below is the name of the sole director and officer of the Company, all positions and offices with the Company held, the period during which he has served as such, and the business experience during at least the last five years:

<u>Name</u>	<u>Age</u>	<u>Positions and Offices Held</u>
Brian L. Klemsz	56	President, Treasurer, Director
Joni K Troska	55	Secretary

Mr. Klemsz has been the Company's President, Treasurer, and sole Director since our inception. Since March, 2007, he has been the Chief Investment Officer of BOCO Investments, LLC. He was President and Chief Investment Officer for GDBA Investments, LLLP, a private investment partnership from May 2000 until February 2007. He is currently also the President, Treasurer, and sole Director of WestMountain Distressed Debt, Inc., and Chairman, Treasurer, and sole Director of WestMountain Company, formerly known as WestMountain Asset Management, Inc., both of which are public companies. He is also a member of the Board of Directors of NexCore Healthcare Capital Corp., a public company and is Chairman of their Board's audit committee. Mr. Klemsz received a Masters of Science in Accounting and Taxation in 1993 and a Masters of Science in Finance in 1990 from Colorado State University. He received his Bachelor of Science degree from the University of Colorado in 1981.

Ms. Troska has been the Company's Secretary since March 2010. She was corporate Secretary of CapTerra Financial Group, Inc. ("CPTA"), a public company, now known as NexCore Healthcare Capital Corp., from January 20, 2009. As of August 2009 she was appointed Treasurer and Chief Financial Officer of CPTA. Prior to 2009 she was Secretary-Treasurer from its inception in April, 2003 until 2005. She is no longer either an officer or director of CPTA as of October, 2010. She currently serves as corporate Secretary of WestMountain Company, formerly known as WestMountain Asset Management, Inc and WestMountain Distressed Debt, Inc., both public companies. She started SP Business Solutions, a business consulting service, in April, 2002. Prior to that period, she was employed for fourteen years as the General Accounting Manager and financial liaison for software implementations and acquisition integration by Advanced Energy Industries, Inc., a public international electronics manufacturing company, in Fort Collins, Colorado. While employed by Advanced Energy, she obtained her business degree in July 2001.

Family Relationships

There are no family relationships among our directors and executive officers. No director or executive officer has been a director or executive officer of any business which has filed a bankruptcy petition or had a bankruptcy petition filed against it. No director or executive officer has been convicted of a criminal offense within the past five years or is the subject of a pending criminal proceeding. No director or executive officer has been the subject of any order, judgment or decree of any court permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities or banking activities. No director or officer has been found by a court to have violated a federal or state securities or commodities law.

Committees of the Board of Directors

There are no committees of the Board of Directors.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 (the "34 Act") requires our officers and directors and persons owning more than ten percent of the Common Stock, to file initial reports of ownership and changes in ownership with the Securities and Exchange Commission ("SEC"). Additionally, Item 405 of Regulation S-K under the 34 Act requires us to identify in its Form 10-K and proxy statement those individuals for whom one of the above referenced reports was not filed on a timely basis during the most recent year or prior years. We have nothing to report in this regard.

Code of Ethics

Our board of directors has not adopted a code of ethics but plans to do so in the future.

Options/SAR Grants and Fiscal Year End Option Exercises and Values

We have not had a stock option plan or other similar incentive compensation plan for officers, directors and employees, and no stock options, restricted stock or SAR grants were granted or were outstanding at any time.

Item 11. EXECUTIVE COMPENSATION

Our officers and director do not receive any direct compensation for their services rendered to us, nor have they received such compensation in the past. We have no plans to pay any compensation to our officer and director in the future.

We have entered into an agreement with SP Business Solutions ("SP") to provide accounting and related services for us. The owner, Ms. Joni Troska, was appointed our corporate Secretary on March 19, 2010 and is considered to be a related party. Fees are charged and paid on a quarterly basis. As of December 31, 2014 an accrual of \$800 has been recorded for unpaid services. Otherwise, our officers and director are not accruing any compensation pursuant to any agreement with us.

No retirement, pension, profit sharing, stock option or insurance programs or other similar programs have been adopted by us for the benefit of our officers or director.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

The following sets forth the number of shares of our \$0.001 par value common stock beneficially owned by (i) each person who, as of December 31, 2014, was known by us to own beneficially more than five percent (5%) of its common stock; (ii) our individual Directors and (iii) our Officers and Directors as a group. A total of 9,106,250 common shares were issued and outstanding as of December 31, 2014.

Name and Address of Beneficial Owner	Amount and Nature of Beneficial Ownership ⁽¹⁾⁽²⁾	Percent of Class
WestMountain Green, LLC ⁽³⁾ 123 North College Avenue, Ste 200 Fort Collins, Colorado 80524	8,050,000	88.4%
Brian L. Klemsz 123 North College Avenue, Ste 200 Fort Collins, Colorado 80524	(3)	
Joni K. Troska 123 North College Avenue, Ste 200 Fort Collins, Colorado 80524	100,000	1.1%
All Officers and Directors as a Group (two persons)	1,452,400	15.95%

⁽¹⁾ All ownership is beneficial and of record, unless indicated otherwise.

⁽²⁾ The Beneficial owner has sole voting and investment power with respect to the shares shown.

⁽³⁾ Mr. Klemsz owns 16.8% of WestMountain Green, LLC.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

On January 1, 2008, we entered into a Service Agreement with Bohemian Companies, LLC to provide us with certain defined services. These services included financial, bookkeeping, accounting, legal and tax matters, as well as cash management, custody of assets, preparation of financial documents, including tax returns and checks, and coordination of professional service providers as may be necessary to carry out the matters covered by the Service Agreement. We compensated Bohemian Companies, LLC by reimbursing this entity for the allocable portion of the direct and indirect costs of each employee of Bohemian Companies, LLC that performed services on our behalf. We received invoices not less than quarterly from Bohemian Companies, LLC. This Service Agreement was for the term of one year, ending December 31, 2014. As of March 31, 2014, the Service Agreement was terminated by agreement of both parties. Total expenses incurred with Bohemian Companies were \$3,000 for the year ended December 31, 2014 and \$12,000 for the year ended December 31, 2013. As of December 31, 2014 we did not have a balance due to Bohemian Companies, LLC.

For the year ended December 31, 2013, we recorded \$77,697 in revenue for management fees charged to EastMountain Alternative Energy, Inc., a related party through its ownership interest in WestMountain Green, LLC. We earn management fees based on the amount of funds managed, and incentive income based on the performance of the funds. As of December 31, 2014 we recorded \$19,390 as an accounts receivable that represents fourth quarter management fees that are due to us from EastMountain Alternative Energy, LLC. The asset management services contract with EastMountain Alternative Energy, LLC was terminated effective December 31, 2013.

We entered into an agreement with SP Business Solutions (“SP”) to provide accounting and related services for the Company. The owner, Joni Troska, was appointed Secretary of WestMountain Alternative Energy, Inc on March 19, 2010 and is considered to be a related party. Fees are charged and paid on a quarterly basis. As of December 31, 2014 an accrual of \$800 has been recorded for unpaid services.

ITEM 14: PRINCIPAL ACCOUNTANT FEES AND SERVICES

Our independent registered public accounting firm, EKS&H LLLP billed an aggregate of \$16,378 for the year ended December 31, 2014 and for professional services rendered for the audit of the Company's annual financial statements and review of the financial statements included in our quarterly reports. EKS&H LLLP, billed an aggregate of \$15,923 for the year ended December 31, 2013 and for professional services rendered for the audit of the Company's annual financial statements and review of the financial statements included in our quarterly reports.

We do not have an audit committee and as a result our board of directors performs the duties of an audit committee. Our board of directors evaluates the scope and cost of the engagement of an auditor before the auditor renders audit and non-audit services.

ITEM 15. EXHIBITS FINANCIAL STATEMENT SCHEDULES.

The following financial information is filed as part of this report:

Director

**CERTIFICATION PURSUANT TO SECTION 302
OF THE SARBANES-OXLEY ACT OF 2002**

I, Brian L. Klemsz, certify that:

- 1) I have reviewed this annual report of WestMountain Alternative Energy, Inc. on Form 10-K;
- 2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the Registrant as of, and for, the periods presented in this report;
- 4) I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the Registrant and have;
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure the material information relating to the Registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the Registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation.
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5) I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the Registrant's auditors and the audit committee of the Registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the Registrant's ability to record, process summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the Registrant's internal controls over financial reporting.
